Lesson Design Worksheet

Academic Content--Sustainability Fusion

Where Are You Now? Student Needs, Classroom Needs, preexisting knowledge, readiness of school and community culture

Where Will You Go? **Objectives for student learning**--Climate and sustainability learning goals in overlap with existing scope and sequence, school expectations and NYS standards

How Will You Get There Design you application--consider the "levels of implementation", new original vs. modification of existing curricula.

How Will You Know You Are There? Assessment/Evaluation

What Next? Follow-up, broad vision, community integration, sharing the effort with the school community and beyond
